

## SIGHT! SOUND! SMELL! TOUCH!

### A multi-sensory experience at Chester Zoo

At Chester Zoo you can do more than just see our animals! You can *smell*, *hear* and *sense* them! Visit the animal habitats and feel resin models, smell scents, listen to sounds from our animals' natural habitats and find out more about our amazing animals and plants on our colourful interpretation signs.

Seek out our Zoo Rangers at advertised talk and discover times where they will be on hand to tell you all about our exciting animals and may even have an interesting artefact for you to explore. Or visit them in Fruit Bat Forest where they'll tell you all about the bats as you feel them whizzing past you.

Use our sensory map to visit the locations below.

### Sight

We have over 23,000 animals at the zoo for you to look at, but we also have video clips, signs, and more to help you find out more about our amazing animals and conservation work.

Location	Sight
Aye Ayes	Look at our information touch screens
Painted Dog Yurt	Look at replica skulls in Perspex boxes
Dragons in Danger	Look at a replica Komodo Dragon skull (behind glass)
Elephants of Manas	Look at the model village and pretend to be an elephant Scan the QR code to watch a BSL elephant talk
Islands	Look at model animal poo in a Perspex box Watch our information video
Lions	Watch our videos, photos and information on the TV screen Play our interactive video game Look at our LED lights as you pull the rope to compare your strength to a lion's
Madagascar	Play on our touch screen with video clips and games
Native	Experience our 360° surround projection space Watch our camera trap videos of native wildlife
Snow Leopards	Watch our information video
Spirit of the Jaguar	Look at the replica skull in a Perspex box
Sumba Classroom	Experience our 360° surround projection space

# LEARN AT CHESTER ZOO

## Sound

Of course, the first sounds to listen out for are those made by our animals. Our Birds, Gibbons, Giant Otters, Elephants, and Chimpanzees are a great place to start. We also have other sounds to listen out for around the zoo as you learn more about our animals, their habitats, and our conservation work.

Location	Sound
Dragons in Danger	Listen to the waterfall
Elephants of Manas	Make a sound like an elephant (on the boardwalk) Listen to the waterfall
George's	Listen to our talking wall by scanning the QR code
Islands	Listen to ambient forest sounds, bird calls, creaking bridge, wind chimes, hustle and bustle of people, thunder and rain, waterfalls
Native	Listen to our information videos Listen to the sounds of native wildlife and their habitats
Play! Basecamp	Play with our musical Instruments Listen to people speaking Malagasy
The Plant Project	Listen to rainforest sounds Listen to the waterfall
Tropical Realm	Listen to and feel the splashes from the waterfall

## Movement

Use your senses to feel our animals moving around you.

Location	Movement
Butterfly Journey	Sense movement from our free flying butterflies
Fruit Bat Forest	Sense movement from our free flying fruit bats
Islands	Sense movement from our free flying birds in Monsoon Forest
Native	Sense movement with projected waves, footprints and mice
Tropical Realm	Sense movement from our free flying birds
Wildlife Connections Hub	See movement in our Hedgehog tilt maze

## Touch

Here at the zoo you can't touch our animals, but we have lots of tactile elements that will help you to learn more about the sizes, shapes, and textures of our plants and animals.

Location	Touch
Andean Bears	Feel the wooden bear cubs model
Butterfly Journey	Feel the giant model of a caterpillar egg (outside the exit)
Cheetahs	Feel our cheetah pug mark (footprint)
Chimps	Feel our life-sized chimp bronze model
Dragons in Danger	Feel our life sized Komodo Dragon bronze model Feel our life sized Rodrigues Day Gecko bronze model
Elephants of Manas	Feel our life sized baby elephant bronze model (on boardwalk) Feel our elephant tail, skin, and tooth models (on boardwalk) Feel our elephant poo model (in house)
Entrance toilets	Feel the pawprints on the doors
Fruit Bat Forest	Feel our models of enlarged bat faces on the walls
Greater One Horned Rhinos	Feel our models of a horn and tusk and a real antler
Islands	Feel our wooden Warty piglets model Feel our wooden Sulawesi Macaque model (Outside Manado Street Kitchen) Feel our wooden Tiger cubs model Feel our fake coral and fake fur (on wooden crates at the Sun Bear habitat) Feel our model orangutan jaw bones (inside Monsoon Forest)
Latin America Walkthrough Aviary	Feel the giant model of a flamingo egg
Lions	Feel our 3D sign of lioness pouncing
Monkeys	Feel our life sized mandrill bronze model Feel our resin face, hand and foot prints (Sulawesi Macaque, Mandrill, Human) (Note - these are behind a barrier)
Penguins	Feel the giant model of a penguin egg
Realm of the Red Ape	Feel our resin hand and foot prints Feel our resin male Orangutan face model Feel our nest and leaf models
Snow Leopards	Feel our tactile map of the Snow Leopards' range
Spirit of the Jaguar	Feel our stone Jaguar heads on wall

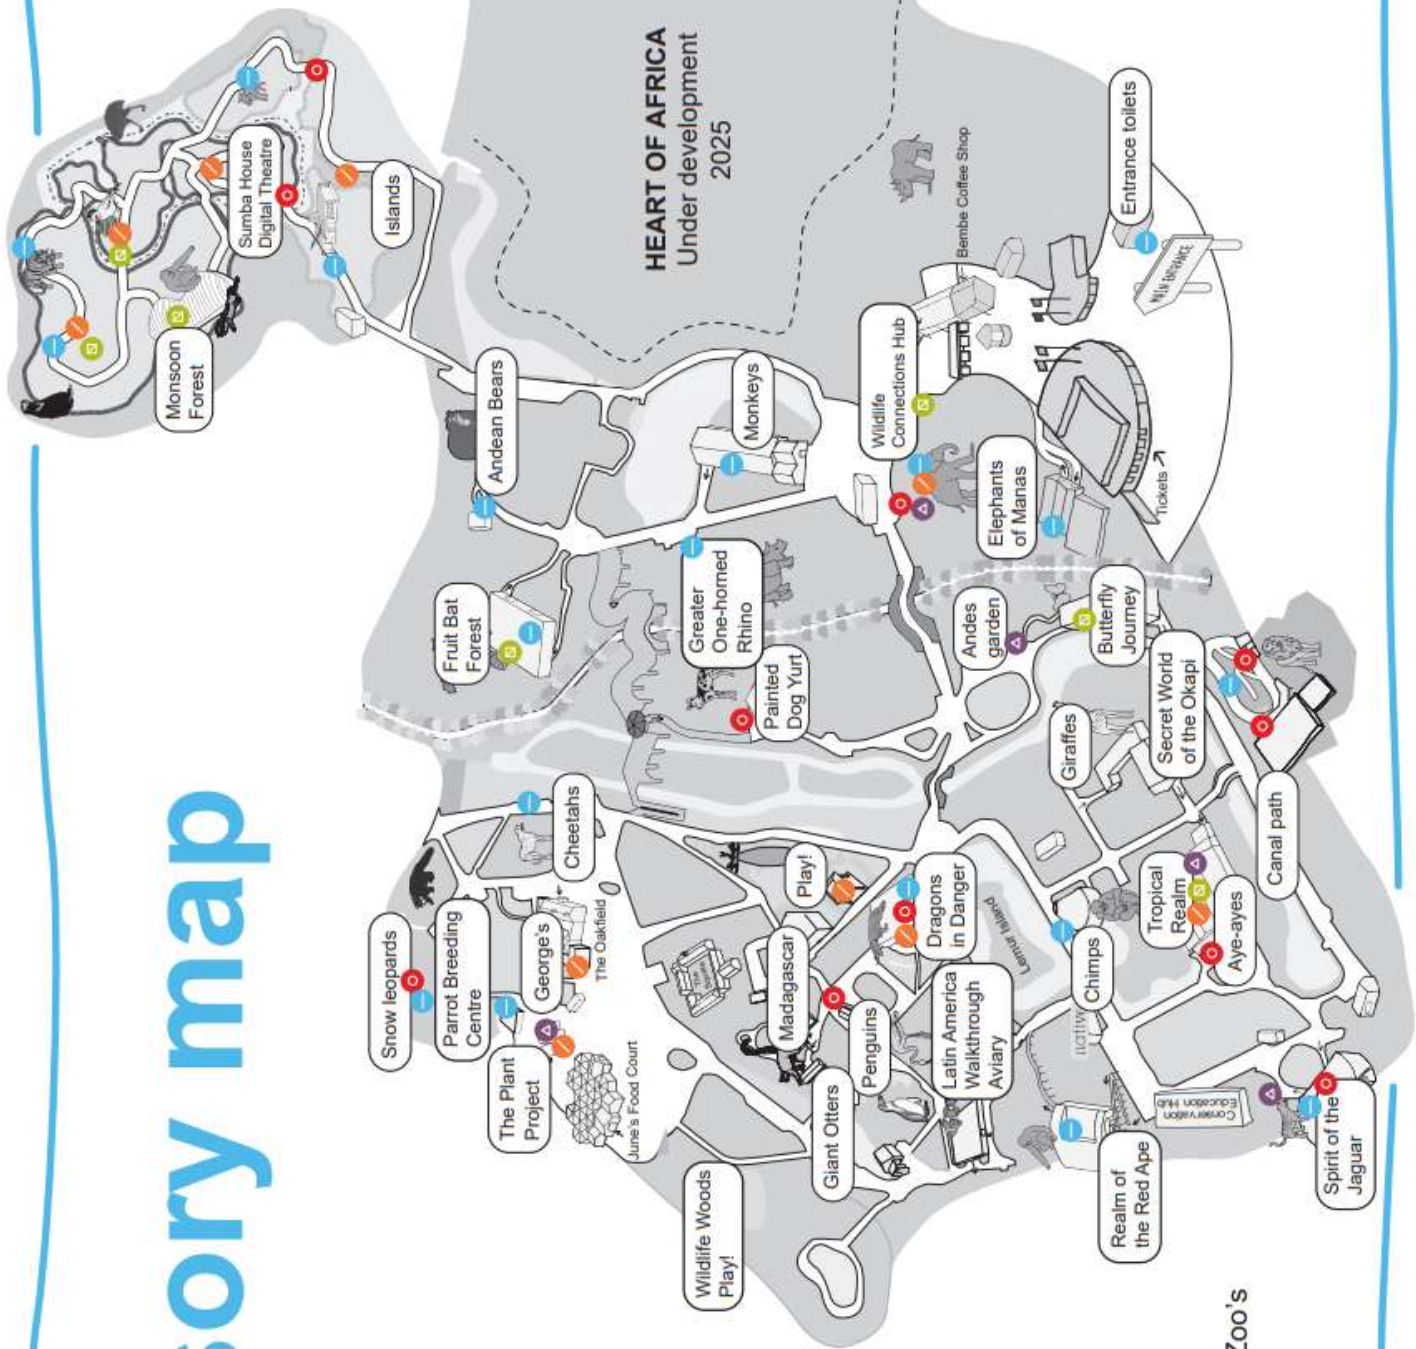

## Smell

Animal smells are part of the zoo and you will notice them during your visit. You can find some particularly pungent animal smells inside our Elephant house, inside our Congo Buffalo house, by our Flamingo habitat, and inside Fruit Bat Forest. You can enjoy aromatic smells from our plant collections in our gardens.

Location	Smell
Andes Garden	Smell our Curry Plant
Elephants of Manas	Open the box to smell lemons, spices and elephant poo! (On the boardwalk)
Spirit of the Jaguar	Smell our Curry Plant near the exit
The Plant Project	Smell our scented Orchids
Tropical Realm	Smell our plant collection – Jasmine near entrance / exit doors
