Why buy sustainable?

Palm oil has the potential to be very environmentally friendly if it is grown sustainably, as it requires far less space to meet our needs than alternatives such as coconut, olive, sunflower and maize. On the same area of land, oil palm produces twice as much oil as coconut and over thirty times as much as maize!

We need YOU to use your purchasing power to help us support sustainable manufacturers! Buying only products that contain certified sustainable palm oil is an important step in helping to protect animals like orangutans and other species that share their rainforest habitat.

Based on their 2018 Annual Communications of Progress to the Roundtable on Sustainable Palm Oil, the brands featured in our shopping list source 100% of the palm oil used in their products sold in the UK through certified physical supply chains. Our list does not include the brands of manufacturers that purchase Book and Claim certificates. If you feel there are any errors or additions that could be made to our list, please contact us at conservation@chesterzoo.org.

For more information about sustainable palm oil, visit www.chesterzoo.org/palmoil
