

# LEARN AT CHESTERZOO

## AFRICAN BIRDS

There are many amazing African bird species. Here are just 3 of them.

Do some research to write some interesting facts about them.  
This website might be able to help you find out more:

[www.iucnredlist.org](http://www.iucnredlist.org)

The IUCN Red List is a list of threatened species. For each species the list tells us how likely it is to go extinct (or if it is already).
