

LEARN AT CHESTER ZOO

COLOUR SCAVENGER HUNT

Animals use colour in lots of different ways. Some use it to hide, some use it to say 'don't eat me', some use colour to attract mates.

You can see all sorts of colours when you visit the zoo (in person or virtually) but can find any of our animal colours in your own homes or school?

Below you will find 4 colour cards. Cut these out and have a look around your home or take them with you out on a walk and see what you can find that matches the colour on your card.

You can use the tables on the next page to record what you find.

Emerald green just like our
Jewel Wasps

Leaf green just like our
Giant Leaf Insects

Red just like our
Red Devil Vampire Crabs

Brown just like our
Weaver Ants
