

OTTER MEASURING ACTIVITY

We have two species of otter at Chester Zoo - Asian short-clawed otter and giant otters. Our giant otters can reach lengths of 1.1 meters and our Asian short-clawed otters reach lengths of 60 centimetres. What can you find around your home/school/out on a walk that is the same length as our otters? Fill in the table with what you find.

Things I found that are longer than a giant otter (more than 1.1m)	Things I found that are the same length as a giant otter (1.1m)	Things I found that are the same length as an Asian short-clawed otter (60cm)	Things I found that are shorter than an Asian short-clawed otter (less than 60cm)

Cut this ruler out to help you measure!
