

# LEARN AT CHESTERZOO

**UK Status:**  
Stable

**World Status:**  
Least concern

Currently not at risk of becoming Extinct in the Wild

<b>Name</b>	Grey Heron		
<b>Scientific name</b>	<i>Ardea cinerea</i>		
<b>Habitat</b> (what they live in)	Freshwater, coastal, wetlands, towns and gardens		
<b>Diet</b> (what they eat)	Fish, small birds, amphibians and mammals		
<b>Lifespan</b>	5 years		
<b>Length</b>	94cm	<b>Wingspan</b>	1.8m
		<b>Weight</b>	1.5 Kg
<b>When to see them</b>	All year		
<b>Act for Wildlife</b>	Protect wetland		
<b>Interesting fact</b>	Plastic decoy herons are more likely to lure birds to a pond than frighten them away from it!
