

# LEARN AT CHESTER ZOO

## CHAMELEON CHAOS

Wow! A very strange thing has happened at Chester zoo! **Magically** a wonderful creation has appeared at the front entrance!

### What could it be?

It looks to be made from recycled bottles and plastics. It looks beautiful but why would anyone make something out of old plastic? Is it meant to tell us something about being careful about how much plastic we use?

We'd love your help to figure out where it's come from. **We need to know...**

- 1 Who do you think made it?
- 2 Why do you think it's here?
- 3 Where did it come from?
- 4 Do you think it's got a message for us? If so, what would it say...?

We can't wait to see what you think!
