

LEARN AT CHESTER ZOO

WHERE IN THE WORLD?

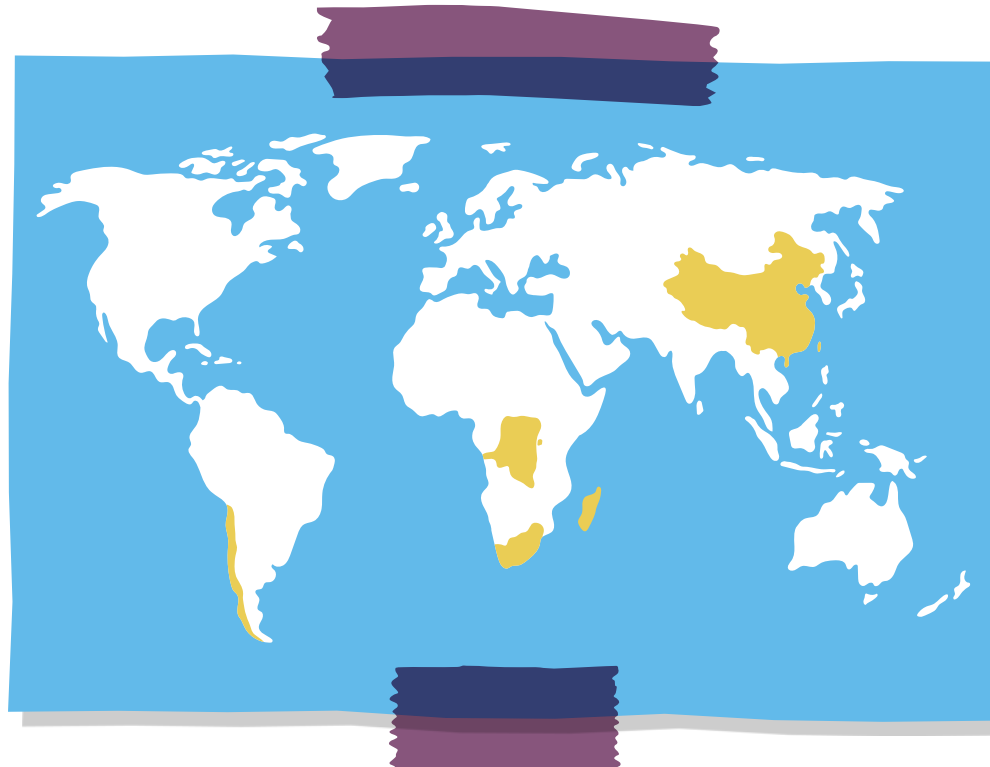

Many of our species here at Chester zoo are affected by **deforestation** as the demand for technology grows. Gadgets and technology contain minerals which have to be mined from underground. This means the animals' **habitat is destroyed**.

Minerals

Can you draw lines to the countries where some of these minerals are mined?

- Tin Oxide China
- Silicone & Gallium China
- Tantalum Rwanda
- Gold Madagascar
- Coltan DRC*
- Cobalt DRC*
- Lithium Chile

*Democratic Republic of the Congo

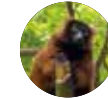

Animals

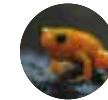

Research and find out where in the world these animals are found. Can you draw some lines matching the animals to where they are found in the wild?

Chimpanzee

Red ruffed lemur

Golden mantella frog

Humboldt penguin

Okapi
