

Land Use data

Graph taken from *Land use for palm oil production*
(ourworldindata.org)

- In which year did World Palm Oil production use >5 million hectares of land for the first time?

- In which year did World Palm Oil production use >10 million hectares of land for the first time?

- In which year did land use in Indonesia exceed that in Malaysia for the first time?

- On a world scale, is land use for palm oil production since 1990 increasing or slowing down compared with the 30 year period before? How do you know?
