

Create a comic book

We need you to become a superhero....a Conservation Superhero.

- Use your drawing, writing (and superhero) skills to come up with a comic book story that saves the day for one special species.
- Pick an endangered animal and find out it's biggest threat to create your Super Villain.
- Then battle it out in an epic conservation story to **SAVE YOUR SPECIES**.

Pick an endangered animal

What animal is at the centre of your story?

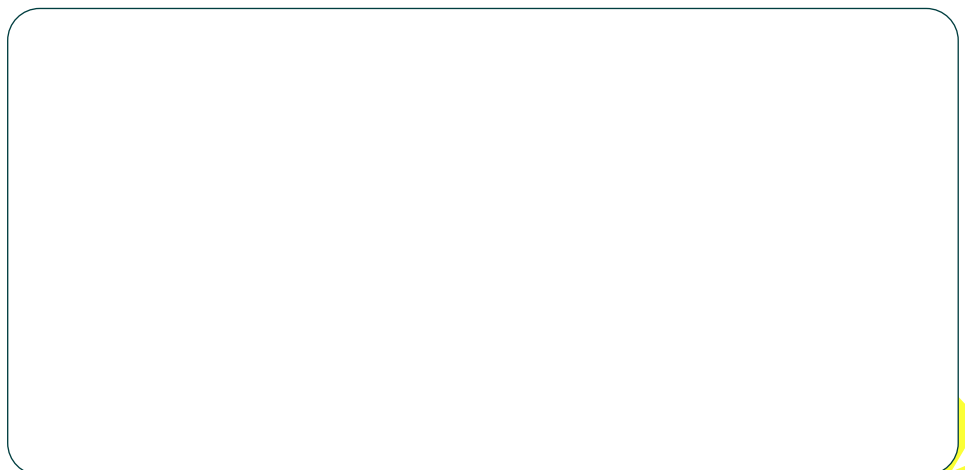

Which country is your animal from?

What habitat do they live in? (i.e rainforest, ocean, desert, grassland etc.)

What's their biggest conservation threat in the wild?

(i.e habitat loss, poaching, deforestation etc.)

Draw your animal

A large, empty rectangular box with rounded corners, intended for drawing the animal.

Draw your super villain

What will they be called?

What's their super power?

(How is this related to the threat to your species?)

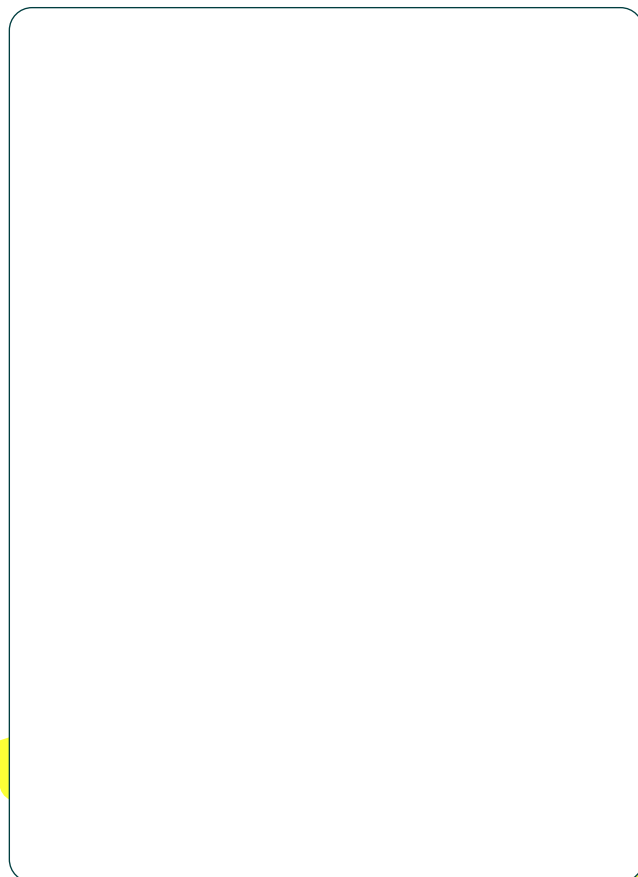

Draw your superhero

Your endangered animal needs a conservation superhero...YOU!

What's your SUPERHERO name?

What's your super power?

(How might you solve the problem?)

Superhero

My name is...

My superpower is...

Animal

My name is...

Habitat

They live...

One day...

Next...

Supervillain

Along came...

Using their superpower of...

This meant that...

So I decided to...

The end

In the end...
